

FACILITIES AND LAND USE COMMITTEE CHARGE

The Facilities and Land Use Committee of the Ledyard Board of Education shall:

1. Review the District's requirements, be cognizant of the District's facilities and land use needs, consider the maintenance needs, and advise the Board relative to legal requirements, such as handicap access and asbestos abatement in accordance with the requirements of Connecticut General Statutes and state agency regulations.
2. Prepare proposals for facility and land use needs for consideration by the Board and/or the Finance Committee (for consideration within the annual budget or for consulting services) in accordance with the requirements of Connecticut General Statutes and state agency regulations.
3. Identify the proposed major facilities and land use projects, and coordinate those projects with the Town Permanent Building Committee.
4. Prepare facilities and land use proposals for projects that may require bonding.
5. Have oversight of environmental items; safety; building code requirements; WPCA liaison; facility and land use maintenance; existing and new capital equipment and tangible assets; infrastructure; real property; utilities; athletic facilities; industrial plant equipment; collateral equipment; and care, maintenance, and operation of buildings, land, apparatus and other property used for school purposes in accordance the requirements of Connecticut General Statutes and state agency regulations.

Voting Membership

The Facilities and Land Use Committee shall consist of three to five Board members appointed by the Board Chairperson. The Director of Maintenance shall be a non-voting member.

Bylaw adopted: August 19, 2009
Revised: January 6, 2010
