

Community Relations

Soliciting Funds from and by School Personnel

It is not a function of the Ledyard Public Schools to be a collection agency for civic, charitable, commercial or other projects. Such fund-raising drives divert much time, energy and attention of the staff from their educational tasks. Employees of the Board of Education must obtain the express approval of his/her immediate supervisor, building principal, and/or the Superintendent of Schools to solicit funds from the students, staff and the general public or the business community.

Every precaution shall be taken to ensure the voluntary nature of any authorized solicitation. No distinction between contributors and non-contributors shall be made.

Policy adopted: November 2, 1994
