

Instruction

Equipment, Books, and Materials

The Board of Education recognizes that appropriate library reference facilities, maps and globes, laboratory equipment, computers, audiovisual equipment, technical equipment, art supplies, athletic equipment, current periodicals, tests and questionnaires, and similar materials are the tools of the teaching profession. The teaching staff will serve on curriculum committees and consult with the administration for the purpose of recommending improvements in curriculum and materials. The Board of Education believes that at all times the schools should be as well equipped and maintained as may be possible within existing financial limitations.

An effort shall be made to insure that comparable materials are available to all students throughout the school system.
