

Instruction

Evaluation of Special Education Program

The Superintendent or designee shall make an annual report to the Board of Education concerning the special education programs of the school district, with particular attention to the various education programs, by program and school.

The report shall include evaluation recommendations of the Superintendent and staff, and by any advisory groups, for improvement in the program.

In addition to the annual report the Superintendent or designee shall make interim reports whenever any phase of the program is significantly less satisfactory than was expected so that necessary adjustments may be made.

The Superintendent shall make certain that the individualized education plan of each student is reviewed and evaluated periodically, or at least annually. The evaluation shall include both an amount of the extent of implementation and its effectiveness.
