

CMT Fourth Generation Mathematics

Handbook Addendum

September 2006

This document outlines some minor modifications to the content in the *Connecticut Mastery Test Fourth Generation Mathematics Handbook*, distributed in early 2006.

Pages 6 and 7: There are several mastery criteria on this chart that are footnoted as pending. They are no longer pending but are now the official criteria for each of the strands.

Pages 101 and 148: The wording “*Do not shade the bars.*” will not be used in any bar graph item beginning with the spring 2007 test.

Page 123: “Equivalen” should be spelled *Equivalent* and “Combina-tion” should not have a hyphen.

Page 133: Paper S3B has an incorrect score notation. This type of paper should not be scored a two, but should be scored a one.
