

# Score Choice™: New SAT® Score-Reporting Policy

Designed to reduce student stress and improve the test-day experience, the College Board has approved Score Choice™, an important change to the current SAT® score-reporting policy. This new policy gives students the option to send SAT scores by test date in accordance with a particular college's score-use practice. Score Choice is optional, and if students choose not to use it, all scores are sent automatically.

Each college, university and scholarship program has different score-use practices. The College Board has designed an easy-to-use process that provides students with score-use practices for each participating institution. *Students are responsible for following an institution's practice, and colleges and universities will only receive the scores that students send them.*

## FAST FACTS

### Availability

- Score Choice is available to all students via the Web or by calling Customer Service toll free.
- Scores from an entire SAT test (critical reading, writing and mathematics sections) can be sent; scores of individual sections from different sittings cannot be selected independently for sending.

### No Additional Cost

- Students can send any or all scores to a college on a single report — it does not cost more to send one, multiple or all test scores.
- Students receive four free score reports with their test registration fee. We continue to recommend that students take full advantage of the four score reports included with their registration.

### More Information

- Score Choice does not affect score reports sent to students or to their high schools — both will continue to receive all scores.
- Score Choice is an optional feature. Students should still feel comfortable sending all scores, since most colleges consider a student's best score.
- We recommend that students send all of their scores if they are unsure of which scores to send.
- The College Board will provide e-mail reminders to students who have not yet sent their SAT scores.
