

# Summer Math

## 2023

Dear Ledyard Families,

Our students have the opportunity to participate in the [Commissioner's Summer Math Challenge](#). Here is a [message](#) to parents/guardians and students in grades 1-12.

There are [two ways](#) students can participate in the summer math challenge:

- Connecticut's Summer Math Passport (grades K-8)
- Khan Academy Get Ready for Grade Level (grades 3-12)

Your student will use the [Summer Math Log](#) to keep track of their participation and progress if they are participating in the Summer Math Challenge or the Khan Academy Mission SAT. Students participating in Connecticut's Summer Math Passport can keep track of their progress using the [Summer Math Passport Booklet](#).

Additionally, this summer students currently enrolled in grades K-5 will have continued access to DreamBox and students in grade 6-8 will have continued access to iReady until August 5, 2023.
